AW02-60: 60 kHz Outdoor Antenna

Long Wave Outdoor Antenna AW02-60 for all Meinberg MSF and WWVB long wave radio receivers.

Key Features

- Weather Resistant
- Temperature Resistant
- 360° Orientation
- Outdoor Mounting
- Plastic case
- Bracket for Wall Mounting

Description

The AW02-60 is a weatherproof and temperature resistant 60 kHz antenna for outdoor use. It includes a ferrite rod with impregnated winding and RF amplifier circuit in a plastic housing, with power provided by the receiver via the antenna cable.

The AW02-60 antenna can be placed up to 300m (1000') from the receiver using standard RG58 cable. Greater distances are possible using an antenna amplifier, low loss RG213 cable or the fiber optic DOAL antenna system.

Characteristics

Control Elements	For orientation the antenna is rotatable (360 deg). When the antenna cable is more than 300m length an antenna amplifier is needed.
Electrical Connectors	Antenna with type-N female connector (RG58 coaxial cable)
Antenna Connector	Coaxial cable RG58 for indoor/outdoor mounting (type-N connector) The cable is available in all lengths and with the required connectors.
Form Factor	Unbreakable plastic case, specially for outdoor installation (IP56) The rubber sealing protects the electronic, the ferrite rod and the winding against external influence.
Physical Dimensions	245mm x 106mm x 68mm (width x height x depth)
Supported Temperature	-25°C ... +65°C
Warranty	Three-year warranty
RoHS Status of Product	This product is fully RoHS-compliant.
WEEE Status of Product	This product is handled as a B2B (Business to Business) category product. To ensure that the product is disposed of in a WEEE-compliant fashion, it can be returned to the manufacturer. Any transportation expenses for returning this product (at end-of-life) must be covered by the end user, while Meinberg will bear the costs for the waste disposal itself.
